The Flowable Hemostat with the Science of Thrombin™
D-Stat Flowable hemostat utilizes clinically proven procoagulant components—collagen, thrombin and a buffered diluent. The thick, yet flowable procoagulant facilitates hemostasis by initiating the body’s own clotting mechanisms.

**Delivers practical advantages**
- Needle-free mixing requires no measuring
- Conveniently stored and applied at room temperature—no refrigeration required
- Pharmacy storage not required
- Mix up to three hours before use

**Equipped with 2 applicator tips**
D-Stat Flowable can be delivered through either the included flexible plastic tip or 20 Gauge needle. The two applicator tips provides multiple treatment options.
Provides the clotting power of thrombin

D-Stat Flowable is indicated for topical bleeding and for the local management of bleeding from vascular access sites, percutaneous catheters and tubes. These may include radial artery access sites, dialysis graft punctures and PICC/indwelling IV lines.

D-Stat Flowable is indicated for use in high-risk, anticoagulated patients undergoing pulse generator implantation and has been shown to reduce the frequency of clinically relevant hematoma formation in the prepectoral pocket following pulse generator implants in high-risk, anticoagulated patients by 48%.

D-Stat Flowable is indicated for gaining tissue tract hemostasis and is used to control bleeding in the tissue tract after placement of a suture-based or collagen plug-based sealing device.
The D-Stat Flowable® Hemostat is contraindicated in persons with known sensitivity to bovine-derived materials. Please see the Instructions for Use for a complete listing of the indications, contraindications, warnings and precautions.

CAUTION: Federal law (U.S.A.) restricts this device to sale by or on the order of a physician.

CAUTION: The D-Stat Flowable procedure should be performed by physicians or physician-directed allied health care professionals with adequate training in the use of device.

** These D-Stat products are available in the United States. Not all products are available in all countries. Please contact the Vascular Solutions distributor or direct sales office for product availability.

U.S. and International patents pending.
